- ¹ this deposition, did you on your own review ² any documents?
- Yes, I reviewed a handful of Α. documents that are standard with our program.
 - Okay. Can you tell me which ones they are?
- Can I ask a clarifying A.
- question? Can you repeat -- do the documents
- ⁹ that had already -- documents that haven't
- ¹⁰ been produced? Anything in addition to
- ¹¹ what --

5

- 12 Q. That would be a swell place to ¹³ start.
- 14 You know, as I think about
- 15 things that I've reviewed, it's standard
- operating manuals and procedures, and I think
- 17 likely all that -- that stuff is part of what
- ¹⁸ was produced, so I don't --
- 19 That's actually not a very fair
- ²⁰ way to place it because you probably haven't
- ²¹ studied the production list yet from
- ²² McKesson.
- 23 A. No. No.
 - So let's talk about it in a Q.
- different context.

Page 27

- 1 Okay.
- I'm assuming at some point in
- ³ time your counsel provided you some documents
- 4 that they culled through based upon the legal
- ⁵ documents, and that, arguably, has been the
- ⁶ subject of some debate between the lawyers on
- ⁷ whether that list is producible or not.
- Aside from that, did you
- ⁹ independently go and review anything on your
- 10 own, document-wise, to prepare for today?
 - Document-wise? You know, I
- 12 looked at files of mine, you know, just, you
- 13 know, what I -- what I have in my own, you
- 14 know, storage on things that I've done or
- ¹⁵ projects that I've been on and reviewed just
- ¹⁶ a variety of different pieces of information
- ¹⁷ that personally I have.
- 18 Where would those files be O.
- 19 located?

11

- 20 On my computer, whether it be
- 21 e-mails or in documents on my standard
- storage on my computer.
- Would it be documents from 23 Q.
- 24 MCK.NET?

25

I don't think there was

¹ anything stored on MCK.NET, our intra -- the

- company's intra site.
- Q. I just wanted to say MCK.NET.
 - MCK.NET, yeah.
 - Did you review documents that O.
- ⁶ were on your personal computer -- that's a
- bad question.
 - Did you review documents that
- are located on your hard drive of your
- computer?

11

13

- My work computer? A.
- 12 Q. Yes.
 - Yes. A.
- 14 Would those documents also have O.
- been on the server?
 - Could you clarify "server"?
- Yeah. So in general, when you
- ¹⁸ have a network of computers, sometimes
- there's a central repository where
- everybody's computer can pull up files from,
- and then there's also on your own computer a
- ²² hard drive that nobody else can look at,
- except you, from your computer station.
 - A. I understand that, sir, but
- ²⁵ I -- you know, in terms of the shared

Page 29

- ¹ repository that we use in regulatory affairs,
- ² yes, there's documents stored on there that
- ³ I've reviewed.
- O. What about documents on your
- personal hard drive on your office computer?
- Yes, I store documents on my
- personal office computer.
- And those documents you
- reviewed prior to today's deposition?
 - MS. HENN: Objection to form.
- 11 THE WITNESS: There are some
- 12 documents.
